

To: Mayor Greg Fischer and Louisville Metro Council. Do not destroy Louisville by making it a sanctuary city.

A sanctuary city is a municipality that has adopted a policy of protecting illegal aliens by not prosecuting them for violating federal immigration laws (and sometimes other laws too) and by ensuring that they have access to free housing, free welfare, free education, free health care, free unemployment payments, free food stamps and free access to WIC (Women, Infants and Children) food programs.

Many illegal aliens get all of this without ever having paid a penny in taxes! All of this is paid for by you and me and ***no consideration is given to Americans who are underpaid, unemployed or in need.*** We are expected to just forget about all of the murders, drugs, crime & failing schools.

We, the undersigned, are fed up with keeping silent for an action that could possibly be an additional tax burden and a possible danger to the residents of the city as well as surrounding counties. WE URGE YOU – DO NOT MAKE LOUISVILLE A SANCTUARY CITY.
